These “soft skills” are applicable to any career, making our students highly competitive in the job market. Moreover, most of our graduates pursue postgraduate education at prestigious universities around the world and eventually become teachers and researchers in top universities.

Students can also collaborate with academic staff on cutting-edge research through the Cognitive Neuroscience of Language Lab, Language and Pedagogy Lab, and the Centre for Researching Education and Language. Research from these centres is published in top journals and leading academic presses. A unique feature of our school is the reciprocal relationship among research, teaching, and learning: each informs the others.

“ 选择了这个专业我感到很幸运，因为这一领域的知识在我规划未来就业版图时给予了我强大的自信心。它加强了我在商业环境下对语言运用的灵敏度。在这些知识的基础上，我在一个公司的帮助下在校内建立了社团。与此同时，我发现了很多能运用这些知识的实习机会。此外，我利用每个暑假去海外参加志愿者活动，因为我发现这是一个很好的平台，让我基于不同的文化背景来分析语言环境。

## MA International Higher Education\* 国际高等教育 文学硕士

\*Full time only 只提供全日制课程

This is a unique programme designed to help professionals develop expertise and knowledge in this important area of higher education. It draws on Nottingham's experience at the forefront of innovation in higher education internationalisation and on its leading academic reputation.

The programme is designed for those who are:

- planning a career in international higher education in any capacity
- teaching and researching in this field or planning to do so in the future
- already working in higher education administration or management and want to advance their international knowledge and understanding.

### Programme content and structure

Higher education systems across the world are placing great importance on enhanced internationalisation in various forms.

Globalisation has been the context for, and the key driver of this internationalisation. The course looks at the nature of contemporary globalisation - and the current challenges to it - and how this influences the roles of universities in society.

The course critically examines various forms of and rationales for internationalisation at national and institutional levels, and their development in response to wider economic and political change.

It examines the implications of internationalisation for students and how their experience can be enhanced to prepare them for futures in an uncertain, globalized world.

Students on this programme will consider the impacts of internationalisation across all the functions of a university, and how change associated with greater internationalisation can be implemented and managed. The programme, therefore, moves from context to strategy and from strategy to practice, so that reflection on practice is always situated and contextualized.

## Professional Doctorate in Education (EdD) 教育学专业博士

This programme is an exciting opportunity for experienced professionals with interest in education to develop critical knowledge and skills necessary to undertake their own research and thereby to enhance their understanding of education so as to improve educational practices in specific contexts.

### Programme structure

The Professional Doctorate in Education (EdD) recruits for a September start each year. Most students take about six years part-time to complete the degree although some may be able to finish it in a minimum of four years. The programme is divided into two parts. Progression to Part II is predicated upon successful completion of Part I. Candidates will be awarded the Professional Doctorate in Education (EdD) degree when they successfully complete Part II by submitting a thesis or portfolio of 50-60,000 words and pass a viva voce examination.

### Part one (taught stage)

The first part of the programme is taught in a series of eight weekend schools (on Saturdays and Sundays; two weekend schools per module). It ends up with a summer school which lasts for five full days in the second summer.

Progression to Part II is predicated upon successful completion of Part I.

### Part two (thesis stage)

In Part II of the programme, participants undertake a sustained programme of research in their own education sub-field, focused on their own context and/ or practice. This should take a minimum of two years and can take two forms:

- Thesis of 50-60,000 words based on a single empirical study, or
- A portfolio of 50-60,000 words consisting of three linked pieces of research (3 x 10,000 words) and a 20,000-word overview and meta-analysis. This can, where appropriate, include educational products (e.g. film, design research outputs, software) as part of the submission but this would be in addition to the requisite 50,000 words.

### Programme Tutors and Supervisors

You can expect to be taught and supervised by nationally and internationally recognised members of the School of Education and English at UNNC supported by a range of tutors drawn from an established, UK-based team of internationally recognised education scholars who boast a wide range of expertise and experience in research, teaching, and policy work.

- 课程1：了解教育学知识
- 课程2：教育研究的方法论和方法
- 课程3：教育研究的文献综述
- 课程4：教育研究领域的主要争议和问题

### 第二阶段：论文阶段

在第二阶段，学生将在自己所属的教育领域开展一项持续的研究项目，研究内容需围绕自身的教育背景或实践展开。此阶段至少需要两年时间，并可采用以下两种形式之一完成：

## Join the 2,000 students who take a language module with the University Language Centre every year as part of their studies.

At the Language Centre we aim to provide you with the language skills and competencies to communicate effectively in everyday life and work settings, skills which are much sought after by potential employers.

All the language modules are taught with a blended learning approach, to help our students to develop digital literacy and essential skills such as team work, independent learning, time management and collaborative work. Students can find online resources on our LMS system (Moodle) and in-class activities where students can interact, discuss and acquire a global awareness that allows them to appreciate diversity and multiculturalism.

### What's on offer

Experienced international staff provide language classes from Beginners (stage 1) to Advanced (stage 5 or 6) and offer 10 and 20 credit modules in 6 languages with various entry points depending on previous language learning experience.

- French
- German
- Japanese
- Korean
- Mandarin (for international students)
- Spanish

We offer a wide range of extra-curricular activities in all languages to promote collaborative work, cultural exchange and enhancement of soft skills. We have our own magazine Cosmo&LC, and we organise cultural events where students are able to demonstrate their proficiency.

In 2022, the Language Centre began an association with the Chartered Institute of Linguists (CIOL), the UK's most distinguished body for Language Professionals. Our programmes at Level 3 and above have been Validated by the CIOL and many of our team members have been granted Member status (MCIL).

隶属于宁波诺丁汉大学人文与社会科学学院的小语种语言教学中心致力于帮助学生实现卓越的语言沟通技巧，旨在帮助学生在多国语言环境的工作场所中获得更广阔的就业前景。

我们的小语种语言教学中心拥有享有国际声誉以及具有卓越教学经验的小语种教学团队，团队教师均为来自目的语国家的语言教学专家。目前针对所有的本科、研究生开设了法语、德语、西班牙语、日语、韩语以及汉语（国际生）的课程。

我们的语言教学风格多样，旨在帮助学生发展广受雇主欢迎的多种跨学科技能：团队合作、自主学习以及时间管理等。学生通过在线的学习平台（Moodle）获得丰富的在线资源，在多样化的课堂上进行互动、讨论，从而学会欣赏多元文化、获得国际化视野。

小语种语言教学中心为学生提供了从入门级别到高级的学位课程。同时，学生也可以选修一门小语种课程作为学位课程的一部分。一门20学分的课程通常每周进行5-6个小时的教学，一门10学分课程通常每周进行3个小时的教学，教学内容包括口语、听力、阅读和写作。

此外，我们还在课外组织了一系列旨在提高学生语言技能、团队合作能力以及促进文化交流的课外活动，例如语言文化周、《Cosmo&LC》杂志编写、小语种电影之夜等。

2022年，我们的中高级语言课程正式获得了英国皇家特许语言家学会（CIOL）的认证，且超过半数的教职员工被吸纳成为该学会的会员（MCIL）。
