

Research project and supervisory team

Supervisory Team	Supervisor Names Jing Xie, Giaime Botti
Short introduction & description of research project	<p>This research project examines architecture in China and its interconnection with a global context. Three distinct streams for this research project have been outlined as follows:</p> <ol style="list-style-type: none">1. Architecture and its relation to the Silk Roads2. Guildhalls across China and Southeast Asia3. Traditional Chinese architecture within a global context <p>The objectives of the research are to explore the global connections of Chinese architecture, and to advance awareness of such connections through the fusion of cultural study, architecture, heritage, and digital technology.</p>
