UNNC – School of Mechanical Engineering, ZJU Doctoral Training Partnership

Research areas

1. Underwater machining/repairing technologies including both subtractive (drilling, milling, turning, grinding) and additive (welding, gluing, glazing)
2. Toolings for varied materials (concrete, stone, carbon fibre composites, ceramics/metallic coatings)
3. Autonomous and intelligent underwater machining/repair machine tool or robotics
4. Remotely control and wireless communication technologies

Potential supervisors

UNNC		
Profile	Research area(s)	Email
Binjie Hu	2	Binjie.hu@nottingham.edu.cn
Haonan Li	2	Haonan.Li@nottingham.edu.cn
Pushpendu Kar	3,4	pushpendu.kar@nottingham.edu.cn
Saeid Pourroostaei Ardakani	4	Saeid.ardakani@nottingham.edu.cn
Xinyu Zhang	1	xinyu.zhang@nottingham.edu.cn
Yong Ren	3	Yong.ren@nottingham.edu.cn
